

Petition to Austin Mayor Leffingwell and Council Members Martinez, Cole and Shade

No Rate Increases! Growth Must Pay for Itself!

Whereas, the Austin City Council majority (Leffingwell, Martinez, Cole and Shade) are preparing to force **36% hike** in our water bill, on top of the **73% hikes** since 2003, to pay for a bloated and unnecessary water treatment plant, and

Whereas, for years, the Council has allowed the real estate industry to off-load their costs of growth on to current residents by not paying their fair share for roads, water, wastewater, drainage and the like,

Therefore, we the undersigned Austin voters, hereby demand that you reject the proposed increases for Austin rates payers this September and adopt policies which make growth pay for itself. Enough already!
